**1. BASIS OF PRESENTATION**

The consolidated interim period financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles. All financial summaries included are presented on a comparative and consistent basis showing the figures for the corresponding period in the preceding year. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements, except as noted below. Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These consolidated interim period statements should be read together with the audited financial statements and the accompanying notes included in the Company's latest annual report. In the opinion of the Company, its unaudited consolidated interim financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim periods presented.

*Principles of consolidation*

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, 2107189 Ontario Inc. and its wholly owned United States subsidiary Pediment Gold LLC. Significant inter-company balances and transactions have been eliminated upon consolidation.

**Recent accounting pronouncements**

*Business combinations*

In January 2009, the CICA issued Handbook Section 1582, Business Combinations, which replaces the existing standards. This section establishes the standards for the accounting of business combinations, and states that all assets and liabilities of an acquired business will be recorded at fair value. Estimated obligations for contingent considerations and contingencies will also be recorded at fair value at the acquisition date. The standard also states that acquisition-related costs will be expensed as incurred and that restructuring charges will be expensed in the periods after the acquisition date. This standard is equivalent to the International Financial Reporting Standards on business combinations. This standard is applied prospectively to business combinations with acquisition dates on or after January 1, 2011. Earlier adoption is permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

*Consolidated financial statements*

In January 2009, the CICA issued Handbook Section 1601, consolidated financial statements, which replaces the existing standards. This section establishes the standards for preparing consolidated financial statements and is effective for interim and annual consolidated financial statements beginning on or after January 1, 2011. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

**1. BASIS OF PRESENTATION** (cont'd...)

**Recent accounting pronouncements** (cont'd...)

*International financial reporting standards ("IFRS")*

In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of May 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended April 30, 2011. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

**2. NATURE AND CONTINUANCE OF OPERATIONS**

The Company was incorporated on April 6, 2006 under the Canada Business Corporations Act and is in the process of acquiring and exploring mineral properties and has not yet determined whether its properties contain reserves that are economically recoverable. The amounts shown for mineral properties and related deferred exploration costs represent costs incurred to date and do not reflect present or future values. The recoverability of these capitalized costs is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves, and future profitable production.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles on a going concern basis that presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The Company has a working capital deficiency as at July 31, 2010 and does not currently have the financial resources to sustain operations. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations. Continued operations of the Company are dependent on the Company's ability to receive continued financial support, complete public equity financing, or generate profitable operations in the future. Under the current difficult economic environment, access to the capital markets to obtain equity financing is very uncertain, and indeed may be unavailable to the Company on a timely basis. Subsequent to July 31, 2010 (Note 15) the Company completed a non-brokered private placement.

**7. STOCK OPTIONS AND WARRANTS**

**Stock options**

The Company has a stock options plan under which it is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. Under the plan, the exercise price of each option equals the market price, minimum price or a discounted price of the Company's stock as calculated on the date of grant. The options can be granted for a maximum term of five years, and generally vest over a 3 year period.

During the period ended July 31, 2010, the Company:

- 1) granted Nil stock options (2009 - Nil) resulting in stock-based compensation of \$Nil (2009 - \$Nil) using the Black-Scholes Option Pricing model.
- 2) recorded a stock-based compensation expense of \$18,354 (2009 - \$69,230) for options vested.

Option pricing models require the use of estimates and assumptions including the expected volatility. Changes in underlying assumptions can materially affect the fair value estimates.

	<u>USD\$</u>	<u>CAD\$</u>
2011	\$ 67,000	\$ 69,000
2012	90,000	93,000
2013	<u>54,000</u>	<u>56,000</u>
	<u>\$ 211,000</u>	<u>\$ 218,000</u>

b) The Company has various commitments relating to its mineral properties as disclosed in note 4.

**10. FINANCIAL INSTRUMENTS**

***RISK MANAGEMENT POLICIES***

The Company is exposed to risk due to the nature of its financial instruments. Risk management is the responsibility of management and the Company did not use derivative instruments.

***FAIR VALUE***

The Company estimates the fair value of its financial instruments based on current interest rates, market value and pricing of financial instruments with comparable terms. Unless otherwise indicated, the carrying value of these financial instruments approximates their fair market value because of the near maturity of those instruments.

As at July 31, 2010 and April 30, 2010, the carrying amount of current financial assets and liabilities approximated the fair value because of the near maturity of those instruments and the carrying value of term deposits and the long-term debt is considered to approximate fair value since it bears interest at current rates for similar types of borrowing arrangements or investments.

Financial instruments measured at fair value on the balance sheet are summarized in levels of fair value hierarchy as follows:

	Level 1	Level 2	Level 3
Assets			
Cash and cash equivalents	\$ 65,610	\$ -	\$ -

***CREDIT RISK AND INTEREST RATE RISK***

It is management's opinion that the Company is not exposed to significant interest or credit risk arising from its financial instruments.

**10. FINANCIAL INSTRUMENTS (cont'd...)**

***LIQUIDITY RISK***

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage, as outlined in Note 11 ("Capital Disclosures"). It also manages liquidity risk by continuously monitoring actual and projected cash flows. The Board of Directors reviews and approves the Company's operating and capital budgets, as well as any material transactions out of the normal course of business.

As at July 31, 2010, the Company was holding cash of \$65,610 and current liabilities of \$190,312 as a result of the limited cash the Company is exposed to liquidity risk and is reliant on the Company's ability to complete and equity financing.

***FOREIGN EXCHANGE***

The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility of these rates. A significant portion of the Company's expenses is denominated in US dollars. Consequently, certain assets, liabilities and operating expenses are exposed to currency fluctuations. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

At July 31, 2010, the Company is exposed to currency risk through the following assets and liabilities denominated in US dollars:

	<u>\$US</u>
Cash and cash equivalents	74,116
Accounts receivable	47,450
Loans receivable	104,180
Prepaid expenses and other	7,378
Deposits and bonds	89,900
Accounts payable and accrued liabilities	(118,011)
Long term debt	(52,572)

***NET EXPOSURE***

Based on the above net exposures as at July 31, 2010, and assuming that all other variables remain constant, a 10% change in the value of the US dollar against the Canadian dollar would result in an increase/decrease of \$5,516 in the loss from operations.

**11. CAPITAL DISCLOSURES**

The Company's objectives when managing capital are: to safeguard its ability to continue as a going concern; and, to have sufficient capital to be able to fund the exploration and development of its mineral properties and acquisition of other mineral resources, for the benefit of its shareholders.

**11. CAPITAL DISCLOSURES (cont'd...)**

In order to maintain its capital structure, the Company, is dependent on equity funding and when necessary, raises capital through the issuance of equity instruments, primarily comprised of common shares and incentive stock options. In the management of capital, the Company includes the components of shareholders' equity as well as cash.

The Company prepares annual estimates of exploration expenditures and monitors actual expenditures compared to the estimates to ensure that there is sufficient capital on hand to meet ongoing obligations. The Company's investment policy is to invest its cash in highly liquid short-term deposits with terms of one year or less and which can be liquidated after thirty days without interest penalty. The Company currently has insufficient capital to fund its exploration programs and is reliant on completing an equity financing to fund further exploration. The Company is not subject to any externally imposed capital requirements.

**12. SEGMENTED INFORMATION**

The company has one operating segment, being the exploration of mineral properties. Geographic information is as follows:
